

Dear Mr. Meaders,

I am a 15 year-old brain tumor survivor and Teen Ambassador

for helping <sup>I would like to thank you</sup> us receive a grant of

\$20,000 from the NA ILBA

Charitable Foundation.

When I was diagnosed recently, I needed to have two brain surgeries and stay in the hospital for a month. It was a very scary

time for my family and me. My family was fortunate enough to not have to ask for financial assistance during that time; but we know that many families do have to ask for help. This generous grant will help families during a very hard time, especially when they have to take time off work and will not get paid. And that helps parents be less stressed and  
→

focus on their child.

we just can't thank you  
enough!

Frannie Geeslin
